

Free Screening | Skin Cancer

Have you been burned?

Skin cancer is the most common type of cancer in the United States. An estimated 5.4 million skin cancer cases will be diagnosed this year. But when found early, skin cancer is almost always treatable.

We are offering **FREE** skin cancer screenings to the public on Saturday, May 7. Take this opportunity to be screened by a physician and learn more about how you can protect yourself and your family from skin cancer. Registration is required.

Saturday, May 7

8 a.m. - noon

Dermatology Clinic

UVA Primary Care Center

1221 Lee St. | Third Floor

Charlottesville, VA 22903

Call to register:

800.223.9173

Bring in a baseball cap or visor to exchange for a new sun hat, while supplies last.

Parking is always free for patients in the Lee Street and 11th Street garages.
